

#### Task 4

Name : Mohammad Faqusa

ID : 201014

Question 1 :

Here is the implementation as show in this video :

<https://www.loom.com/share/89ff464f4fe44a69a57077dba3d2516e?sid=a079ffcf-4f44-4bc8-b6d3-2eb2fecfb272>

When click to RB0 , it goes from left to right, and vice versa for RB1

Question 2 :

Here is the implementation as show in this video :

<https://www.loom.com/share/c0dce3c116c7480c99184fd0b7fd5462?sid=97fe7191-9028-47b8-b1b6-2e0ece572452>

RB(0) and RB1(1) are set as external interrupts

When pushing RB0 : increment

When pushing RB1 : decrement
